

Q-MACS Mount and Heatsink for QCL on open mounts – Q-MACS Cube

Dimensional drawing of the Q-MACS heatsink for QCL on open mounts.

The Q-MACS mount and heatsink provide an easy connection of lasers on open mounts with electronics and optical setups and while enhances the heat dissipation for higher power devices. Different versions for laser on NS-/ST- and C-mount respectively are available on request. The Q-MACS Cube provides compatibility to the 30 mm Cage system.

All dimensions are given in mm.

Fischer Connectors Core Series DBEE-103 with 6 poles
